

**Photooxidants, Particles, and  
Haze across the Arctic and  
North Atlantic:  
Transport Observations and  
Models**

**12-15 June 2001**

## **Sponsored by**

- **U.S. Environmental Protection Agency**
- **Environment Canada**

## **In coordination with**

- **UN/ECE European Monitoring and Evaluation Program (EMEP)**
- **Arctic Monitoring and Assessment Program (AMAP)**

## **Hosted by**

- **CIESIN**

# CIESIN is ...

- **The Center for International Earth Science Information Network**
- **[www.ciesin.columbia.edu](http://www.ciesin.columbia.edu)**
- **A NASA Data Center**
  - Socioeconomic Data and Applications Center  
([sedac.ciesin.columbia.edu](http://sedac.ciesin.columbia.edu))
- **US Global Change Research Information Office**
- **The World Data Center for Human Interactions in the Environment**
- **Part of the Columbia Earth Institute**

# **CIESIN develops information tools concerning ...**

- **International Environmental Agreements**
- **Global change research**
- **Population-environment interactions**
- **Remote sensing**
- **Stratospheric ozone depletion**
- **Environmental Security**
- **Sustainability**

# **CIESIN has a special interest in environmental models**

- **Scenarios**
  - IPCC Special Report on Emission Scenarios Open Process
- **Climate Models**
  - Model Visualization and Analysis (IMAGE, ICAM, MINICAM)
  - Agricultural Impacts (GISS)
- **Gridded socioeconomic data**
  - Gridded Population of the World data set

# **CIESIN's goals this week**

- **Facilitate interaction**
- **Foster openness, discovery, priority-setting**
- **Disseminate presentation materials, key findings**
- **Provide a pleasant environment for carrying out challenging tasks**
